

# How Safetica helps to comply with HIPAA

The Health Insurance Portability and Accountability Act deals with protection of health-related personal data and governs the ways it can be processed.

Any system processing health information, has to provide protection against threats, hazards to security or integrity, unauthorized use or disclosure of the information.

Safetica software can be implemented as a part of safeguards of protected health information. The solution offers variety of tools for reaching compliance with the HIPAA 's administrative, physical and technical safeguards:

Administrative Safeguards	Specific tools of Safetica
<b>Security Management Process (§ 164.308(a)(1))</b>	
Risk Analysis (R)	Safetica Auditor logs: > Files operations; E-mails; Print; Web sites access; Applications access
Risk Management (R)	Safetica Supervisor tool: > Application control; Website control Safetica DLP Safetica Channel control tool Disk encryption
Information System Activity Review (R)	Safetica Auditor logs: > Application access; Web sites access Security Alerts Reports
<b>Assigned Security Responsibility (§ 164.308(a)(2))</b>	
Assigned Security Responsibility (R)	Access Management: > Access settings; AD Security Groups; Access management logs
<b>Workforce Security § 164.308(a)(3)</b>	
Authorization and/or Supervision (A)	Safetica Auditor logs Safetica DLP rules Safetica DLP protocol
Termination Procedures (A)	Safetica DLP Safetica DLP protocol Safetica Supervisor tool

<b>Information Access Management § 164.308(a)(4)</b>	
Access Authorization (A)	Safetica DLP Disk Guard Safetica Supervisor tool: > Application control; Website control
<b>Security Awareness and Training § 164.308(a)(5)</b>	
Security Reminders (A)	Safetica reminds updates automatically
Protection from Malicious Software (A)	Safetica Supervisor tool: > Application control
<b>Security Incident Procedures § 164.308(a)(6)</b>	
Response and Reporting (R)	Safetica logs Safetica Alerts Safetica Reports

<b>Physical Safeguards</b>	<b>Specific tools of Safetica</b>
<b>Workstation Use § 164.310(b)</b>	
Workstation Use satandard (R)	Safetica Supervisor Safetica DLP Disk guard Device Control
Accountability (A)	Safetica Device Control

<b>Technical Safeguards</b>	<b>Specific tools of Safetica</b>
<b>Access Control § 164.312(a)(1)</b>	
Encryption and Decryption (A)	Safetica DLP > Bitlocker disks
<b>Audit Controls § 164.312(b)</b>	
Record and examine activity (R)	Safetica Auditor logs: > Files operations; E-mails; Print; Web sites access Applications access
<b>Transmission Security § 164.312(e)(1)</b>	
Encryption (A)	Safetica DLP Safetica DLP > Bitlocker disks

(A): adressable  
(R): required
